NashJet 600D

TECHNICAL SPECIFICATIONS

Drum Size	162mm diameter
Highest Consistant Temperature	240 Deg C
Temperature Sensor	Non-contact infrared Sensor
Temperature Controller	Digital
Maximum media width	600mm
Maximum Media length	upto 25 meters
Heating and cooling time	20min/ 20 min
Power Consumption	2Kw
Power Requirement	2 Phase, 220V
Speed	Upto 14 Sqm/hr
Physical Dimentions	
Servicing intervals	Every 1000 heating hours
Mass	50Kg
Accessories	Feed table, basic tentioning system
